WattPRO ELECTRICAL

CAPABILITY STATEMENT

COMMERCIAL ELECTRICAL

Maintenance. Breakdowns. Projects.

LOCAL COVERAGE. SPECIALIST EXPERIENCE.

WattPRO Electrical is an owner-operated electrical contracting business based in the Noosa hinterland. Led by Director David Simon, we support commercial, retail, industrial and petroleum sites with preventative maintenance, reactive repairs and electrical upgrades.

SUNSHINE COAST | NOOSA | GYMPIE

CORE CAPABILITIES

Reactive maintenance & fault finding

Electrical breakdowns, fault diagnosis, repairs and restoration of supply.

Planned maintenance & testing

Preventative maintenance, RCD testing, appliance testing and compliance checks.

Lighting & electrical upgrades

Lighting repairs and LED upgrades, switchboards, distribution boards and new circuits.

UPS & backup power

UPS installation and maintenance, generator connections and backup power works.

Petroleum & hazardous areas

Petroleum site electrical maintenance and hazardous area electrical work (EEHA).

Minor projects & alterations

Commercial fit-outs, electrical alterations and quoted upgrade works.

RELEVANT EXPERIENCE

Director experience includes maintenance and project work at Ampol, Shell, EG, Caltex and Aldi sites, spanning petroleum and retail environments. This background supports an understanding of site access, operational requirements and working around trading facilities.

LICENCES & CREDENTIALS
